Tech Tips for Attendees

Participation Dos and Donts

Please be on time. Log-in using your Registration Invitation 5 minutes before the event start time. Assistance will be available once logged into the event. Search for the attendee labeled “Technical Support” and send a private message through Zoom’s chat feature.

Attendees are muted and off camera when joining the event. Technical Support will grant speaking and/or video privileges throughout the event. If you speak during the event, please make sure there is no background noise or visual distractions in view of your camera.

Do not respond directly to questions entered by other attendees in the Zoom chat feature. Please allow Event Organizers and Conquering CHD staff to appropriately answer questions or pose to the presenting panelists.

The Summit is a live, virtual event and is being recorded for future viewing. Your name and/or video will be included in the recording if you speak or present during the event.
